### The Nigger Rhyme

Let me tell you the story bout the word nigger, yeah?  
Used against slaves by massas and overseers  
Then continually used for hundreds of years  
Now it's used in the day-to-day  
To make people feel afraid  
Despite the use of it by blacks to make us feel empowered  
White folks wanna use it and make it ok  
They gotta be put on notice, k  
Nigger OR nigga ain't right in their mouths  
Cuz they might get teeth knocked out  
To any white mothafucka out there that wants to use it I say this  
If you even THINK about uttering it you gonna catch my fist  
To those willing to defend these cowards I say the same  
Cuz to be honest this shit's getting ridiculous  
This last shout goes to the UMass administration  
You gotta do better  
Stop sending emails to ease your own guilt  
Cuz for real the denials and deflections? They get built  
Like a stack, ever higher, neverending until someone says ENOUGH  
Show that you care, please stop sounding so gruff  
This shit's fucking old aight, I'm done wit it  
Either give me my money's worth and show me you care  
Or take your empty promises and bring em to the back stairs
